GENERAL REGULATIONS

NOTE: MUST be read in conjunction with event rules.

1. EVENTS: CATEGORIES

The CSGA has divided the selected events included in this rule book into three categories: Mandatory, Optional and Bonus. The Host Committee (HC) for each Canada Games is responsible for holding the **16 mandatory events** for their Games. The winners in all of these events will be awarded medals.

- **Mandatory Events:** These events are the ones that are played by most, if not all of the member provinces/territories.
- **Optional Events:** These events are not played widespread across the country, but are played and popular enough in sufficient provinces/territories to warrant consideration by the HC. The HC is to select a minimum of **4** and a maximum of 6 of these events for the Canada Games, ensuring that they have the minimum **20** events required but do not exceed the limit of **22** events.
- **Bonus Events:** In addition to the **20 – 22** Mandatory and Optional Events the HC may opt to include one or more of the Bonus Events listed. These are to be counted as medaled events but are to be scheduled, as best as possible, so as to not interfere with the majority of regular events already selected. The purpose of this category is to allow participants to enter into a second event if desired and as long as they do not conflict with their primary event selection. **Non-Participants are not eligible to participate in these events.**
- **Demonstration Events:** In addition to the above categories, the HC may opt to include demonstration events. These may be an event unique to the area where the Games are being played.

2. ELIGIBILITY: RESIDENCY

- All participants must be residents of the province/territory they are representing and must adhere to provincial/territorial selection criteria.
- All participants must be Canadian citizens, or have landed immigrant status, at the time of their selection at the provincial/territorial level for the Canada 55+ Games.
- Adoption of non-residents may **ONLY** be used to complete a team of 4 or more, not to exceed 30% of the team under the following circumstances:

1. The non-resident must not “bump” or prevent a resident from participating i.e. they will only be used to fill vacancies.
2. The non-resident will be considered an official member of the “new” province/territory for the duration of the games and must be provided with a team “uniform” if other members of the team are provided with them (either free or through purchase).
3. The non-resident will march with the “new” team in a parade (if any) and sit with the “new” team in the opening and closing ceremonies.
4. The non-resident will be eligible to win medals in the same manner as any other team member.
5. The non-resident will register through the “new” province/territory.

3. ELIGIBILITY: AGE CATEGORIES

- Participants must be at least 55 years of age (by December 31) in the year of the Canada 55+ Games.
- Participants are allowed to compete in one age category only.
- Where there are discrepancies between:
 - i. a participant’s age at the time of qualification and their age at the time of the Canada 55+ Games, the participant may have to compete in a younger age category;
 - ii. the age categories utilized by a province/territory and by the Canada 55+ Games, team participants should compete in the Canada 55+ Games age category that corresponds to the age of their youngest member. Individual participants may also have to move to a younger category.

4. REGISTRATION

- Registration, either as a Participant or a Non-Participant, entitles the registrant to transportation to and from the airport where the Games are being held, transportation between Game venues and Game sanctioned hotels, a luncheon following the Opening Ceremonies and parade, and a dinner served before or in conjunction with the Closing Ceremonies. Registrants are also entitled entrance to all social and entertainment Events offered by the Host Committee during the Games, although some of these may entail an additional surcharge which must be detailed on the Registration form.
- All participants must complete, in full, the registration form and submit with the required registration fees to the Provincial/Territorial Team Manager by

the agreed deadline. It is imperative that participants include their travel arrangements on this form – failure to do so may result in there being no one there to pick you up at the airport, train station or bus depot.

- All participants and non-participants MUST complete the CSGA Non-Participant/Participant Health Form. It is to be kept by the registrant and brought to registration at Games time. This Health Form MUST be worn inside the participant name tag through the duration of the Games.
- With the exception of Bonus Events (if offered), participants may not register or compete in more than one competitive event. They may, however, register and compete in more than one event within an event. For example, a participant may register in doubles and mixed doubles in the tennis event. If Bonus Event(s) are offered by the HC, then all participants may register for this event as long as it does not conflict with their primary choice of event.
- A participant may register in a lower age category if the province/territory has not filled the entry requirements in that category.

5. SUBSTITUTION / FILLERS

- Substitutions will only be allowed prior to the time the participants leave their respective provinces/territories. The Host Committee must be informed of any substitutions made between the time the original registration forms were submitted and departure for the Games.
- Fillers may be used under the following circumstances ONLY:
 - a. To make for a viable competition in consultation with the Technical Director. “Fills” will pay FULL registration fees and will receive FULL privileges.
 - b. In the event of extraordinary circumstances or injury.
- Fillers required during the Games due to medical or any other unforeseen occurrence will normally be found by the Host Committee (HC), unless the P/T affected is able to fill the position from one of its own non-participants. If the fill is found by the HC in the midst of the Games, then no registration fee is to be levied against the individual filling in.

6. TRANSPORTATION TO HOST CITY

- Transportation to and from the host city is the responsibility of the individual or province/territory from which the participants and non-participants are traveling.

7. TEAM COLOURS

- It is recommended that each province/territory outfit their participants and delegates in some form of provincial/territorial colours as follows:

AB – Blue

NB – Yellow

ON – Red

SK – Kelly Green

BC – Varies

NT – Blue

PE – Forest Green

YT – Red, Black & White

MB – Golf & Brown

NS – Blue & White

QC – Blue & White

8. DRESS CODE

- A dress code will be in effect where mandated by the sport governing body for that event.

9. SMOKING / ALCOHOL / SCENT FREE POLICY

- All indoor venues at the Canada 55+ Games events will be smoke and **scent free** in the specific area of play.
- Participants may not consume alcoholic beverages during the time they are engaged in active event competition.

10. DELIVERY ASSISTANCE DEVICES

- For people with a disability, the use of delivery assistance devices will be allowed for any event in the Canada 55+ Games with no medical certificate required.

COMPETITION REGULATIONS

NOTE: Must be read in conjunction with event rules.

1. DEFAULTS

- Participants must be at their event site and ready to compete at least 15 minutes prior to the competition starting time.

2. PROTEST COMMITTEE

- Protests are to be submitted in writing and signed on the OFFICIAL PROTEST FORM which is turned into the Games Office or specific event coordinator within one hour after completion of the game/event/heat. The Protest Committee will rule on technical, rules-related disputes. The decision by the Protest Committee will be given in writing to the person who signed the protest form, with a copy to the Event Director. In general, a protest should be verbally indicated at the time of the occurrence, then followed within one hour of completion of the event by a formal written protest. The team manager/**Director** for the person or persons involved should be notified, so that input can be given, before any final decision is made.

A protest form is included in this Master Rule Book on page 121. The Host MUST ensure that these forms are available at all event venues.

The Protest Committee shall be composed of a minimum of four people including the:

- overall person in charge of Games Events
- person in charge of the specific event
- CSGA Technical Director, and
- a nonpartisan Host Committee designate.

3. DISCIPLINARY COMMITTEE

- The Disciplinary Committee, in the unlikely event of being needed, will consist of the Host Committee's Game Manager, the President of the CSGA and the Technical Director of the CSGA. The applicable Event Coordinator or their representative should also be in attendance; but if unavailable due to ongoing games, their written report on the incident shall suffice.

4. PROTESTS

- A Protest form template shall be produced by the CSGA and provided to the Host Committee of each Canada Games. The Host Committee will ensure that these forms are available at all venues.

5. SCORING AND RESULTS

- In most cases, events will be run using a round-robin format (either single or double depending on time available), with the medalists being determined from the results of the round robin without the requirement for a play-off. In the event that an event requires that a play-off system be used, the recommended procedure for conducting the play-off is detailed in this Master Rule Book.
- Gold, silver and bronze medals will be awarded for all events. A medal count will be posted on a daily basis at the sites of all events.
- Final posted results for every event will include the standings of all participants, not just the medal winners.

GAME COURTESIES

NOTE: MUST be read in conjunction with event rules

Card Games

Common to all card games, there are a few courtesies:

- One does not pick up a dealt hand and say, “That’s a poor deal.” Or “You’re a bad dealer.”
- One does not pick up cards as they are dealt. More misdeals are caused by hands moving on the table than any other cause.
- Cards are cut by the player on the right before each deal. Cribbage, by practice, has only the cut to determine the dealer. The bottom card, or the one above the required turnover, is never exposed or looked at.
- Lead-directing comments or gestures are not good card manners.
- No rulebook allows the throwing in of hands in Whist or Bridge with “No Ace, No Face”.
- Adequate time must be allowed to the opposition to see a trick or hand before it is placed away. Observers must not touch the cards, talk to or provide advice to the players.

Note:

Some localities have “**house**” rules and games, which are played by their own standards. We do not wish to interfere with these “**house**” situations, but all participants are encouraged to practice the above-listed courtesies and to adhere to the rules of each event as laid down in this Rule Book.

Floor Games

Common to Floor Curling, Bowling, Carpet Bowling, Floor Shuffleboard, Bocce and some other action games there are some courtesies:

- Lines “thou shall not step over” exist to place all players on an even footing. Often there are not enough line judges to watch each play.
- Rules of the games indicate who is to lead, mark the score, and where players should move to their next turn. It is improper to make comments or loud noises when others play.
- Shake hands before the game commences, and at the conclusion of the game.
- Leave judging and score marking to the proper persons.

Other Rules

Rules for many of the events that older adults play (Swimming, Track, Tennis, Slo-Pitch, Badminton, Table Tennis, etc.) are contained in rulebooks written by Provincial/Territorial, National or International governing bodies; which may be referred to in this Master Rule Book.

Certain modifications have been made to the sport governing body rules to take into consideration the age category and level of competition.

Other

Avoid the use of strong perfumes, colognes or shaving lotion to prevent an opponent sneezing, being choked up or coughing at the wrong time.

EVENT REGULATIONS

NOTE: MUST be read in conjunction with event rules.

1. GENERAL

- Participants come to the Canada 55+ Games for a variety of reasons, but most importantly to play the “event” of their choice and other participants from all across Canada.
- **The event schedule MUST indicate the Prov/Terr beside the participants name.**

2. THE DRAW

- When making the draw for any event, it is important to remember that the event must be **a minimum of three (3) days**. Exception: Cycling, Golf, Swimming & Track & Field
- For most events, a double round robin will suffice, but dependent on the number of participants registered, either a single round robin or in some cases a triple round robin may have to be used.
- If a very large number of participants are registered, then a two-division round robin can be played.
- In the case of Bowling, Ice Curling, Hockey and Slo-Pitch, dependent on the number of lanes, sheets of ice, ice arenas and diamonds respectively, these events may have to be extended into one or more evenings.
- **The Host should endeavor not to have the same Prov/Terr teams/participants in the same pool and/or playing against their own Prov/Terr.**
- **Whenever possible, final medal games in all events MUST have the appropriate officials: referees, umpires, lines people, score keepers, etc.**
- For most draws, scheduling from 9:00am – 5:00pm will suffice. Participants also come to the Games to enjoy the social component in the evenings.

3. MEDALS

- Gold, silver and bronze medals will be awarded to first, second and third place respectively.
- All members of winning teams will receive a medal.

Medals will be presented at the end of the round-robins unless a tie exists for a medalled position.

3. Ties

If a two-way tie exists at the end of the round robin, a best of three playoff is to be played. If a three-way tie exists at the end of round-robin play, players will toss coins until one person has the "odd" coin and receives a "bye" in the playoff. The other two players play a best of three playoff, with the winner of this game going on to play a best of three playoff against the player who received the "bye". The winner of this playoff is the overall winner.

4. General Overview

- a. 8-Ball is a call shot game played with a cue ball and 15 object balls numbered 1 – 15.
- b. One player must pocket balls of the group numbered 1 through 7 (solid colors), while the other player has 9 through 15 (stripes).
- c. The player pocketing either group first, and then legally pocketing the 8-ball wins the game.

5. Table Size – 4' X 8': 8-Ball

6. Order of Break

- a. Winner of the coin toss has the option to break.
- b. The winner of each game breaks the next.
- c. The following are common options that may be designated by tournament officials advance:
 1. Players alternate break
 2. Loser breaks

7. Racking The Balls

The balls are racked in a triangle at the foot of the table with the 8-ball in the center of the triangle, the first ball of the rack on the foot spot, a stripe ball in one corner of the rack and a solid ball in the other corner.

8. Call Shot

- a) In a Call Shot, obvious balls and pockets do not have to be indicated.
- b) It is the opponent's right to ask which ball and pocket if he is unsure of the shot.
- c) Bank shots and combination shots are not considered obvious, and care should be taken when calling both the object ball and the intended pocket.
- d) When calling the shot, it is never necessary to indicate details such as the number of cushions, banks, kisses, caroms, etc
- e) Any balls pocketed on a foul remain pocketed, regardless of whether they belong to the shooter or the opponent.
- f) The opening break is not a "called shot".
- g) Any player performing a break shot in 8-Ball may continue to shoot so long as any object ball is legally pocketed on the break.

9. Legal Break Shot

- a) (Defined) To execute a legal break, the breaker (with cue ball behind the head string) must either 1. Pocket the ball, or 2. Drive at least four numbered balls to the rail.
- b) When the breaker fails to make a legal break, it is a foul, and the incoming player has the option of
 - 1. Accepting the table in position and shooting, or
 - 2. Having the balls re-racked and having the option of shooting the opening break or allowing the offending player to re-break.

10. Scratch on a Legal Break

- 1. The balls pocketed remain pocketed (Exception, the 8-ball : see rule 11.b)
- 2. It is a foul,
- 3. The table is open.

Note: The incoming player has cue ball in hand behind the head string and may not shoot an object ball that is behind the head string, unless he first shoots the cue ball past the head string and causes the cue ball to come back behind the head string and hit the object ball.

Object Balls Jumped Off The Table On The Break: it is a foul and the incoming player has the option of: 1. Accepting the table position and shooting, or 2. Taking cue ball in hand behind the head string and shooting.

11. If the 8-ball is pocketed on the break

- a) A breaker may ask for a re-rack or have the 8-ball spotted and continue shooting.
- b) If the breaker scratches while pocketing the 8-ball on the break, the incoming player has the option of a re-rack or having the 8-ball spotted and begin shooting with ball in hand behind the head string.

12. Open Table

- a) Defined: The table is “open” when the choice of groups (stripes or solids) has not yet been determined.
- b) When the table is open, it is legal to hit a solid first to make a stripe or vice-versa
- c) Note: The table is always open immediately after the break shot.
- d) When the table is open, it is legal to hit any solid or stripe first in the process of pocketing the called stripe or solid.
- e) However, when the table is open and the 8-Ball is the first ball contacted, it is a foul and no stripe or solid may be scored in favour of the shooter.
- f) The shooter loses his turn, the incoming player is awarded cue ball in hand; any balls pocketed remain pocketed: and the remaining player addresses the balls with the tables still open.
- g) On an open table, all illegally pocketed balls remain pocketed.

13. Choice of Group

The choice of stripes or solids is not determined on the break, even if balls are made from only one or both groups, because the table is always open

immediately after the break shot. The choice of group is determined only when a player legally pockets a called object ball after the break shot.

14. Legal Shot

- a) (defined): On all shots (except on the break and when the table is open), the shooter must hit one of his group of balls and
 - 1. pocket a numbered ball, or
 - 2. cause the cue ball or any numbered ball to contact a rail.
- b) Please Note: It is permissible for the shooter to bank the cue ball off a rail before contacting the object ball; however, after contact with the contact ball, an object ball must be pocketed, or the cue ball or any numbered ball must contact a rail.
- c) Failure to meet these requirements is a foul.

15. “Safety” Shot

- a) For tactical reasons, a player may choose to pocket an obvious object ball and also discontinue a turn at the table by declaring “safety” in advance.
- b) A safety shot is defined as a legal shot.
- c) If the shooting player intends to play a safe by pocketing an obvious object ball, then prior to the shot, the shooter must declare a “safety” to the opponent.
- d) It is the shooter’s responsibility to make the opponent aware of the intended safety shot.
- e) If this is not done, and one of the shooter’s object balls is pocketed, the shooter will be required to shoot again
- f) Any ball pocketed on a safety shot remains pocketed.

16. Scoring

- a) A player is entitled to continue shooting until failing to legally pocket a ball of this group.
- b) After a player has legally pocketed all of his group of balls, he shoots to pocket the 8-Ball.

17. Foul Penalty

- a) Opposing player gets cue ball in hand.
- b) This means that the player can place the cue ball anywhere on the table (does not have to be behind the head string except on opening breaks).
- c) This rule prevents a player from making intentional fouls which would put an opponent at a disadvantage.
- d) With “cue ball in hand”, the player may use a hand or any part of a cue (including the tip) to position the cue ball.
- e) When placing the cue ball in position, any forward stroke motion contacting the cue ball will be a foul, if not a legal shot.

18. Combination Shots

Combination shots are allowed, however, the 8-Ball can't be used as a first ball in the combination unless it is the shooter's only remaining legal object ball on the table. Otherwise, should such contact occur on the 8-Ball, it is a foul.

19. Illegally Pocketed Balls

An object ball is considered to be illegally pocketed when:

- 1) that object ball is pocketed on the same shot a foul is committed, or
- 2) the called ball did not go in the designated pocket, or
- 3) a safety is called prior to the shot.

Illegally pocketed balls remain pocketed and are scored in favour of the shooter controlling that specific group of balls, solids or stripes.

20. Object Balls Jumped Off The Table

1. If any object ball is jumped off the table, it is a foul and a loss of turn, unless it is the 8-Ball which means loss of game.
2. Any jumped object balls are not re-spotted.

21. Jump and Masse' Shot Foul

While "cue ball fouls only" is the rule of play when a match is not presided over by a referee, a player should be aware that it will be considered a cue ball foul if during an attempt to jump, curve or masse' the cue ball over or around an impeding numbered ball that is not a legal object ball, the impeding ball moves (regardless of whether it was moved by a hand, cue stick follow-through or bridge).

22. Playing the 8-Ball

When the 8-Ball is the legal object ball, a scratch or foul is not loss of game if the 8-Ball is not pocketed or jumped from the table. Incoming player has cue ball in hand. Note: A combination shot can never be used to legally pocket the 8-Ball, except when the 8-Ball is the first ball contacted in the shot sequence.

23. Loss of Game

A player loses the game by committing any of the following infractions:

- a) Fouls when pocketing the 8-Ball (exception: see 8-Ball Pocketed on the Break – Para 11).
- b) Pockets the 8-Ball on the same stroke as the last of his group of balls.
- c) Jumps the 8-Ball off the table at any time.
- d) Pockets the 8-Ball in a pocket other than the one designated.
- e) Pockets the 8-Ball when it is not the legal object ball.

Note: All infractions must be called before another shot is taken, or else it will be deemed that no infraction occurred.

24. Stalemated Game

If, after 3 consecutive turns at the table by each player (6 turns in total), the referee judges that attempting to pocket or move an object ball will result in loss of game, the balls will be re-racked with the original breaker of the stalemated game breaking again. The stalemate rule may be applied regardless of the number of balls on the table.

Note: Three consecutive fouls by one player in 8-Ball is not a loss of game.

7. In the event of a tie, there will be a one game tiebreaker.

8. SCORING

The averages of all games played by each participant will be used to determine the final standings in both Singles and Team play.

Dependant on the number of lanes available, this event may have to be extended into an evening. Each bowler (in Singles & in Teams), should expect to be scheduled to bowl, at the very minimum, 4 games.

Note 1:

5-Pin Bowling is played in the majority of the member provinces / territories; however, in NB & NS, Candlepin is the primary bowling game played and in QC it is Duckpin. When the Canada Games are played in NB, NS or QC; Candlepin or Duckpin, as appropriate, will replace 5-Pin as one of the Mandatory Events.

Note 2:

Scheduling may or may not permit single's to also bowl on teams. The Host Committee is to ensure that provinces/territories are advised as soon as known as to whether singles bowling and team bowling will be conducted concurrently or separately. It is also essential that Province/Territory Directors inform the Host Committee as soon as possible as to whether they have bowlers that plan on bowling in both singles and team 'IF' this can indeed be accommodated.

BOWLING - CANDLEPIN

All participants must be at least 55 years of age by December 31 of the year of the games.

RULES INFORMATION:

International Candlepin Bowling Association Rules will apply.

1. A round robin format will be used depending on the number of entries.
2. Teams must consist of five bowlers and may consist of any combination of men or women.
3. **Singles Competition.** The top three female and the top three male participants in each age category with the highest scratch score will be awarded medals.

NOTE: For bowlers coming from outside of NB & NS, a conversion chart is included below that will allow conversion of 5-Pin averages to Candlepin averages. If your 5-Pin average is not shown on the chart, use a conversion factor of .526 to determine your Candlepin average. A good 5-pin bowler should fare well at candlepin as long as they remember that deadwood may be their best friend and that a score of 100 isn't too bad!

INTRODUCTION TO CANDLEPIN BOWLING

The sport of Candlepin is a bowling game unique to the Canadian Maritime provinces and New England. It is an exciting skilful sport, requiring minimal physical strength while demanding great timing, dexterity and *patience* of the bowler. It is a sport enjoyed by all, young and old, strong and handicapped, male or female. Further information on it can be found at www.bowlcandlepin.com. However, as many of the bowlers may not have had the opportunity to watch this version of the game, let alone play it, the following is a ready reference to the main aspects of the game.

SCORING

Candlepin bowling, although using a ball just slightly smaller than a five-pin ball, consists of 10 pins, or sticks, and thus is scored in the same manner that 10 pin bowling is scored. Therefore the maximum score is 300, but be forewarned, no one has ever officially recorded a perfect game – in fact the highest recorded score is in the low 250's. The other thing that must be remembered is that 'deadwood' on the alley is in play, and often with proper foresight, can be used by the bowler to their advantage.

PLAYING RULES AND REGULATIONS

BALL RULES

1. **FAIRLY DELIVERED BALL:** A ball is fairly delivered when in its forward motion it touches the playing area before the 10ft. lob line. Any ball touching down beyond the 10ft. lob line is deemed a foul.
2. **FAIR CONTACT:** A ball shall be considered to have made fair contact only when it strikes a standing pin or playable wood before it (the ball) leaves the lane. A ball otherwise shall be considered foul and shall suffer the same penalties as for a GUTTER BALL.

3. REBOUNTING BALLS:

- a) Should any ball, after making fair contact, for any reason rebound from any object on the deck or pit area, the pins so downed shall count in the scoring.
- b) If the ball did not make fair contact, the pins shall not count in the score.

4. GUTTER BALL: If a ball leaves the lane without making fair contact and comes back knocking down pins; the pins downed by that ball shall not count in the scoring. Only pins downed by fair contact shall count.

- a) If the first ball is foul and comes back to down pins, the pins shall be reset, and the bowler shall forfeit that ball and count only the pins downed fairly with the next two balls. (The first ball is considered foul even if no pins are downed by it).
- b) If the first and second balls are foul and come back to knock down pins, the pins shall be reset after each ball, the bowler forfeits both balls and shall count only the pins downed by the third ball.
- c) If the first and third balls are foul, but the second is fair, the player shall only count the pins downed by the second ball.
- d) If all three balls are foul, the player shall score zero (0) for the frame.
- e) If the first ball is fair and the second and/or third balls are foul, the pins shall not be reset. The player will forfeit all pins downed by the foul ball or balls and score only those downed by the balls that were fair. If no pins are left standing by the foul action of the second ball, the player shall score only those pins downed by the first ball.

5. EXTRA BALLS: Rolling extra balls in any frame will constitute a foul and the bowler will receive zero (0) for that frame.

6. BOWLERS DROPPING BOWLING BALLS DELIBERATELY on the approach shall be warned and if a second offence occurs, the bowler shall be penalized under the deliberate foul rule.

PIN AND DEADWOOD RULES

1. **DOWNED PINS – DEADWOOD LINE:** All downed pins, called wood, remaining on the lane entirely behind the deadwood line are live and playable. Those touching or forward (toward the bowler) of the deadwood line are dead and shall be removed. Wood shall be judged live or dead only after it has stopped moving.

2. QUESTIONABLE DEADWOOD: Any questionable deadwood shall be removed by a designated official.
3. PIN – PIT AREA: A pin that sticks up out of the pit area is not playable.
4. WOOD – ACROSS PLATE AND GUTTER: Where wood is partly on the plate or lane and partly in the gutter, the ball must make fair contact with the wood while the ball is still touching the lane for any pins downed to count in the scoring.
5. BALL HITS DEADWOOD IN GUTTER AND CORNER PIN: If a ball makes contact with wood in the gutter (deadwood) at the same time as making fair contact with a corner pin or playable wood, the pins downed by such action shall count.
6. DOUBLE DEADWOOD IN THE GUTTER: When there is double deadwood in the gutter, it shall remain.
7. REBOUNDING PINS: Pins knocked down by pins rebounding from the sidewall, machine, rear cushion or any other object in the deck or pit area shall count as pins down.
8. PIN DOWNED, THEN STAND UP: If a downed pin is caused to stand erect again in the playing area, it shall be judged as down and shall remain on the lane to be played as wood.
9. PINS THAT FALL AFTER THE RESET BUTTON IS PRESSED, or the pinsetter sweep is in motion, shall not count.
10. MOVING WOOD: A bowler must wait until all wood has halted motion under penalty of foul. (Pins felled by ball shall not count). However, if the wood has apparently stopped rolling and then starts rolling again while the player is in the act of delivering the ball, or while the ball is in motion, there shall be no penalty.
11. PINS FALL BEFORE FAIR CONTACT: If a pin or pins fall after the ball is fairly delivered but before making fair contact, the following shall apply:
 - a) ON FIRST BALL: The bowler resets and is entitled to three balls in the frame.
 - b) ON SECOND OR THIRD BALL: Bowler is credited with making fair contact. (Example: Bowler knocks down nine pins with the first ball. Second ball is fairly delivered but before making contact, the remaining pin falls over. The bowler is credited with a SPARE).

FOUL RULES

1. **FOUL LINE RULE:** A player in delivering the ball must not let his action cause him to slide over, step on or over the foul line, nor permit any part of his body or clothing to come into contact with the lanes, gutters, ball returns, division boards, walls, uprights or floors which are beyond the foul line, at any time after the ball passes over and beyond the foul line, nor until he shall have picked up a ball and completed his succeeding delivery, under penalty of foul. (See foul line and lob line penalty).
 - a) Any object which falls from the pocket or person of a bowler shall not constitute a foul.
 - b) Bowlers are not allowed beyond the foul line under any circumstances.
 - c) When a bowler, while in possession of a ball accidentally fouls while taking a practise slide, the bowler will lose that ball. The penalty is the same as the foot foul rule.
2. **LOB LINE RULE:** Bowling is a game of rolling, not throwing balls. Any ball that does not, in its forward motion, touch the playing area before the lob line, shall be considered a lobbed ball and shall suffer the foul penalty. See foul line and lob line penalties below. Continuous infractions of this rule will result in disqualification.
3. **FOUL LINE AND LOB LINE PENALTIES** are the same as for gutter balls.
4. **CLEARED GUTTERS:** Both gutters must be cleared of any pins or balls before the first ball is delivered in any frame. The penalty is the same as if the first ball is a foul.

ETIQUETTE

Like duelling, Candlepin bowling requires a certain degree of *savoir faire* before one attempts to kill their opposition. A few of the basic laws of etiquette are as follows:

- a. Before you throw the first ball of the first game, shake hands with the person in the adjoining lane. Remember this person well, as you will be bowling beside them for the entire game (unless there are an unequal number of bowlers on the two lanes).
- b. Bowlers bowl two frames at a time on the same lane, and then on the following turn switch lanes to bowl the next two frames, and so on.

- c. The bowler on the right hand lane will normally bowl his first ball before the bowler in the left lane does. Depending on the speed of the two bowlers, this is not necessary for the remaining balls, but bowlers should try to avoid delivering their ball at the same time that their opposing bowler is delivering theirs.

TEAM COMPOSITION

1. Teams may consist of any combination of men and women.
2. The age bracket for a team is determined by the age of the youngest bowler on the team. (for example: if four men all aged 75+ team up with a younger woman of the age of 55, they must bowl in the 55-64 age category – and they will be HAPPY!

NOTE: Candlepin will replace 5-Pin as a Mandatory event when the Games are held in NB or NS.

RULES:

Duckpin bowling has rules similar to ten-pin bowling, but is scored like Candlepin bowling. In a 10-frame game, bowlers try to knock down pins in the fewest rolls per frame. Bowlers have three balls per frame, instead of two in ten-pin bowling, to knock over a set of 10 pins. If a bowler knocks down all 10 pins with their first roll in a frame, it is scored as a strike. If all the pins are knocked down in two rolls, the bowler has made a spare. If all the pins are knocked down in three rolls, the bowler gets 10 points, as in candlepins, with no bonus. If pins are still standing after the third ball, the bowler gets one point for each pin knocked down.

In the case of a strike, the bowler gets 10 points plus the total number of pins knocked down with the next two balls rolled, for a maximum of 30 points. In the case of a spare, the bowler gets 10 points plus the number of pins knocked down with the next ball, for a maximum of 20 points. If it takes three balls to knock down all 10 pins, the bowler gets 10 points, with no bonus. A bowler's final score is the sum of the points earned over 10 frames (a spare or a strike in the tenth frame earns one or two rolls respectively). The maximum possible score is 300 points, which is accomplished by rolling 12 strikes in a row.

The variant of this game played in Quebec is called **rubber band duckpins**. The pins are circled with hard rubber bands to increase action and scoring. Bowlers tend to throw

slowly with their fingers facing forward to give the ball backspin. There have been perfect games bowled in rubber band duckpin. Since it is easier to knock down pins in rubber band duckpin than in regular duckpin its rules are identical to those of standard ten-pin bowling.

Separate conversion charts from 5-Pin/Candlepin to Duckpin in order to convert averages for POA will be established once proper data has been collected.

COMPETITION:

1. A round robin format will be used depending on the number of entries.
2. Teams must consist of five bowlers and may consist of any combination of men or women.
3. **Singles Competition:** The top three female and the top three male participants in each age category with the highest scratch average score will be awarded medals.
4. **Team Competition:** The top three teams in each age category with the best average will be awarded medals.
5. In the event of a tie, there will be a one game tiebreaker.
6. The decision as to whether bowlers playing singles can also participate on the team bowling will depend on the number of lanes available and thus as to whether singles bowling can be conducted separately from the team bowling. The host committee will inform the CSGA as soon as possible whether the schedule will allow for both events to be run separately. If this is possible, then bowlers playing singles may also play on a team.

TEAM COMPOSITION:

1. Teams may consist of any combination of men and women.
2. The age bracket for a team is determined by the age of the youngest bowler on the team. (for example: if four men all aged 75+ team up with a younger lady of the age of 55, they must bowl in the 55-64 age category).

Duckpin will replace 5-Pin as a Mandatory event when the Games are held in QC.

CONTRACT BRIDGE

All participants must be at least 55 years of age by December 31 of the year of the games.

AGE CATEGORIES / EVENTS: Pairs - 2 males, 2 females or 1 male /1 female.

AGE	EVENTS	NUMBER OF PARTICIPANTS PER PROVINCE/TERRITORY
55+	Open Pairs	5 Pairs
TOTAL NUMBER OF PARTICIPANTS PER PROVINCE/TERRITORY = 10		

RULES INFORMATION

1. All players must have the same partners throughout the competition.
2. Depending on the number of entrants, the tournament will be a round-robin or a modified round robin format with four hands per round.
3. The pair accumulating the highest total score during the entire tournament will be the winner.
4. All conversation shall be in English as recognized as standard procedure in international competitions.
5. Unnecessary talking will not be permitted.

OFFICIAL CONTRACT BRIDGE RULES

1. American Contract Bridge League Laws of Contract Bridge will apply.
2. North Player has first deal, followed by East, South and West.
3. A round consists of a series of four deals that have been bid and played. If a deal is passed out, the same player deals again and the deal passed out does not count as one of the four deals.
4. Cards may not be picked up until the deal has been completed. If any of the four players do not have 13 cards, a misdeal is declared. The same person will re-deal, with the player on the left remaking the cards and the one on the right cutting again.
5. A misdeal is also declared if a 10-honour card or a face card is exposed during

the deal. The same re-dealing procedure is followed.

6. One bid's must be played.
7. Honours must be scored before the next hand is dealt.
8. Vulnerability is not determined by previous scores but by the following schedule (Chicago system):
 - 1st Hand – Neither team is vulnerable
 - 2nd Hand – Dealer's team is vulnerable
 - 3rd Hand – Dealers team is vulnerable
 - 4th Hand – Both teams are vulnerable
9. For making a game (100 or more trick points), a side receives a premium of 300 points if on that deal it is not vulnerable or 500 points if on that deal it is vulnerable. There is no additional premium for winning two or more games, each game premium being scored separately.
10. Each hand is scored on its own merit (2♣ making 3 is 140 (90+50), 4♥H vulnerable is 620, etc.). There is no accumulation of part scores or games from deal to deal during the round
11. Players may not check back on the last trick once the next lead has been made.
12. In playing the hand, the player may not reach across and play from the dummy before the person on their left has played. No one else may touch or play a card from the dummy.
13. The penalty for revoking (reneging) is the value of two tricks awarded to the opponent.
14. The cards will be played to the last trick, unless it is obvious that one player has the remaining 'boss' tricks. Regardless, hands will be completely played out if requested by any player.
15. There will be two score cards at each table. A member of each pair is to keep score. After completion of the round and the totalling of scores, opponents will initial each other's card before they move on to the next table.
16. In the case of a tie for a medal position at the end of the round robin, the marshal will review the scores from only those games involving those teams that are tied to determine the winner. If, in the oft chance that a tie still exists after this, the teams tied will play an additional round (4 hands).
17. A qualified official to ensure fair play for all will oversee competition.

RULES INFORMATION:

The provisions of the Laws of Cribbage will apply.

Also note the following:

- One game of 121 points constitutes a match.
- Neither penalty, nor extra premium will be scored for a skunk.
- As soon as a player pegs out, no further counting can be done.
- Cut for crib in each game. Lowest card wins the deal.
- When counting, cards must be placed face up on the table.
- In the event of a misdeal, the dealer will deal again.
- Jacks that are 'cut' may be counted right up to and including the last hole.
- Any points missed cannot be counted once a player has finished moving his peg.
- Suit in the hand counts four. Suit in the hand plus deck card counts five. Suit in the crib plus the deck card counts five. Suit in the crib only does not count.
- No "muggings" are allowed. (Players get whatever they have.)
- Opposition agrees with your score before you peg.
- At the Canada 55+ Games, tournament play shall be a double round robin (normally one round per day.)
- The scoring system will be based on wins plus losses with one point for a win and zero points for a loss. Should there be a tie; a winner is declared based on total points scored by those tied in all games played. If a tie still exists, go to "who beat who" in the round robin (amongst those tied).
- No game may be conceded.
- All pairs must have the same partners throughout the competition.

OFFICIAL CRIBBAGE RULES

WHAT YOU NEED

All you need to enjoy the game is a standard cribbage board with pegs, a regular deck of 52 cards, and a table or playing surface.

SHOWING AND MAKING POINTS

The cribbage board is merely used to keep track of the score. Each player has a set of pegs that is moved up and back on his row of holes, or around the track if the board is of the continuous track type. The peg that is farthest advanced for each player indicates his total current score; the other peg shows the total after the previous play and the difference between the two is the number of points gained in the play just completed.

Points are made in two ways by the play of a hand and in the count or “meld” of the hand; that is, players deal and play out their cards as shown below and then pick up their hand again to make additional points through combinations contained in the hand.

PLAYING THE GAME

The easiest way into the game is to start playing it with special attention to some terms that have special meaning in cribbage and are underlined in the explanation that follows.

Each player cuts the deck for the low card to choose the dealer who deals five cards to each player one at a time. In looking over your hand, you’ll find the counting of “pip” value corresponds to the numerals with the exception of face cards which all count for ten, and the aces, which count for one. It takes several deals to complete a game in which one player makes a total of 121 and the deal alternates among the four players.

After the deal, each player puts one (1) card face down on the table. These 4 cards make up the crib and are put aside till after the hands are played. Then the “pone” or dealer’s opponent to his right cuts the deck and the dealer takes the top card off the bottom section to obtain the starter which, like the crib, is set aside and has no significance during the play; if it happens to be a Jack, the dealer takes 2 points for “Nobs” by putting his leading peg in the second hole.

Then players, starting to the left of dealer (the pone), in turn play cards individually face up on the table. Cards are played around the table with the dealer being the fourth player with the opportunity to play. Each chooses a card that will make points when added to the first card played, adding up to 15 or mating the first card for a pair by placing it face up in front of them towards the middle of the table. The third card played in like manner by the next player might make a run of three if all three cards (regardless

of suit) that have been played in sequence have pip values that are played or can be arranged in numerical order like 2-3-4, 4-3-2, 6-7-8, 8-7-6.

This continues until the total pip values played add up to 31 or until one player cannot play without going over 31; in that event the other player takes a point for “Go” and must play for as long as he can add pip values that do not exceed 31. After each 31 all cards played are turned over and any part of “run” cannot be carried over for counting into the next 31 series. Any time a card played hits 31 “on the nose” the player can take 2 points; otherwise each “card before the other player has to stop” counts one.

While some hands will play out without reaching 31, the hand will usually contain more than one 31 series and continues until all cards are played. Each time one player can't play without exceeding 31, he tells the other player to “Go”. In summary, here are the points that can be scored in play:

Fifteen.....	2 points
Pair.....	2 points
Triplets.....	6 points
Fours.....	12 points
Runs of 3 or more.....	1 point for each card
“Last Card”.....	1 point
31 w/last card.....	2 points
Nobs in hand.....	1 point

COUNTING THE HAND

After the last card is played, the hands are counted using the starter card as if it were a fifth card in each hand. The pone counts his hand first, taking points for any and all combinations that he finds, as listed above except of course “last card” and “31”. In addition he may take 4 points for a 4 card flush (4 cards in the hand all in the same suit) and 5 points for a 5 card flush, pegging off his count, as for example “15-two-four-six and eight, two pairs for 12 and four runs of three for 24”. The Jack of the same suit as the starter card, found in the hand is called “Nobs” and counts one point. Players continue to count in order with the dealer counting his hand and the crib last.

To count a flush in crib, all 4 cards must match the suit of the starter card. It should be noted that in counting the hands, the same cards can be used over and over so long as either a new card is added or the same cards for different combination. The example above is of a hand, which, with starter card, contains a pair of fours, a five and a pair of sixes.

EXAMPLES OF COUNTING:

Here are some examples of possible cribbage hands and how they add up after the play. Checking them out against the first six of the eight point values listed above and the 5 for a 5- card flush that apply to the “meld” will help you become accustomed to recognizing combinations that count.

The N stand for His Nobs or Jack of trump, and the asterisk (*) indicates that the whole hand and starter are of one suit (5-card flush). Impossible hand counts are 19, 25, 26 and 27. The first example counts out as follows: “fifteen-two, four, six, (the 10 and 1 combining with each of the three fours for two points each) and triplets are 12.

EXAMPLES OF COUNTING:

ERROR IN PEGGING

If a player places a peg short of the amount to which he is entitled, he may not correct the error after he has played the next card. If he pegs more than his announced score, the error must be corrected on demand at any time before the play resumes.

The hand and crib must be laid out plainly when counting and must remain so until the opponents understand the count being carried out.

<p>TOTAL NUMBER OF PARTICIPANTS PER PROVINCE/TERRITORY = 24</p>		

- Entry to the Games will be based on provincial/territorial results from the singles participants.
- Those playing singles may form pairs to play doubles and mixed doubles. If two players from different age categories in singles join to form a team in doubles, the age of the younger player of the team will determine which age category they will compete in.
- Although not the ideal or recommended situation, if singles from different province/territories decide to team up because a partner is not available from their own, they may do so. If fortunate enough to win a medal, each player in the team will receive the appropriate medal; however, in the calculation of overall medals won by individual province/territories, each province/territory involved will receive credit only for ½ of a medal.

4. The bull double, like all doubles, may finish a game if the correct total is reached.
5. After the round robin, if a two-way tie exists among those eligible for medals, an extra game (best of three legs) shall be played by those tied to determine the higher standing. If more than two are tied after the round robin, there will be one game of 501 points with all tied players playing concurrently on the same board. RULES AND REGULATIONS

1. A game will consist of 8 frames. A frame is when all four players have played their discs. The choice of disc colour will be decided **by the flip of a coin.**
2. All players will be allowed 4 non-interrupted practice shots.
3. In doubles, the 2 partners stand at opposite ends of the court facing each other throughout the game and shall not leave their own end until the game is completed.
4. To start a game, yellow discs will be placed on the right-hand side of the court. All discs will be placed in the 10 off area. Yellow disc is shot first alternating until discs are all shot. Black shoots first to start the second frame, with the color alternating to start each frame.
5. Discs must be launched from anywhere within the shooting player's half of the court area. Players change sides halfway through the game and play with the same color of disc for all frames.
6. The shooting player's feet must not come in contact with the baseline or step over at any time during the execution of the shot. Penalty – 10 off.
7. A disc, which stops in the area between furthest deadline and starting area, is dead and shall be removed before further play. If a disc is touching furthest deadline, it is in play. A delivered disc coming in contact with a disc touching the deadlines becomes a dead disc and is removed unless this disc is also in contact with deadline.

8. A disc that comes to rest within the 10 off area without touching any outside lines is scored a minus ten. The separating triangle is not considered a line, so a disc coming to rest in contact with the triangle will be scored as a minus ten.
9. Any disc that clearly leaves the court beyond the furthest baseline, or comes to rest outside the sideline, is a dead disc.
10. A disc, which stops beyond the furthest baseline or beyond the sideline, shall be removed.
11. A disc or discs returning to, or remaining on the playing area, of the court after having struck an object outside the playing area, shall be removed from further play.
12. The baseline is the line continuing on the outside of the court for six feet six inches, at each end and also the line signifying the end of the court at each end.
13. SCORING: After all 8 discs have been shot, the score is counted. A disc scores in the area in which it comes to rest. Discs touching a division line do not score.
14. Discs cannot be removed until the scorekeeper, or umpire has verified the score. The penalty for this infraction will be: movement of own disc then that disc will not be counted; removal of opponent's disc, the disc will be put back as close as possible to previous position.
15. A standard playing court measuring six feet in width and 52 feet in length will be used.
16. The playing area shall be 39 feet in length from baseline to baseline.

RULES AND REGULATIONS:

1. Golf Canada Rules will apply.
2. In case of a tie, the retrogression method will be used.
3. For Low Callaway: Dependant on the golfer's score, a certain number of holes will be deducted from their gross score to determine a "handicap". The holes used for this deduction will be pre-determined prior to the commencement of play, but golfers will not be informed of which holes they are until after the competition is complete. No more than 'double par' can be deducted for any full hole taken off. The Modified Callaway Scoring System is depicted in the table at the bottom.

NOTE: The normal Callaway scoring system has been modified to ensure that the golfers play the game, not the system.

4. Groups may consist of two, three or four golfers, depending upon the number registered. If practical, players from the same prov/terr will not play in the same group. Groups will be men or women, but not mixed.
5. Medals will be awarded to both men & women in all five age categories and in both events. Medal winners in the Low Gross categories are not eligible to win medals in the Low Callaway category-

138	139	140			7 worst holes
-2	-1	0	+1	+2	Handicap Adjustment

(This table is for a Par 70 course)

All Players' scores are adjusted to a maximum of twice par on all holes.

Look up the adjusted score in the table and see the number of holes to deduct. Round up. If a player has a deduction of ½ a hole and his designated hole score is a 7 then he may deduct 4 (3.5 rounded up). Once the deductions are made look in the column where the adjusted net score scored is found and apply the number in the bottom row.

(The scores on the last two holes played may not be used for adjustments. If a shotgun start is used, the scorecard must clearly indicate which hole the golfers started out on).

Hole #	1	2	3	4	5	6	7	8	9	Out	10	11	12	13	14	15	16	17	18	In	Total
Par	4	4	4	3	4	5	3	4	3	34	4	5	3	4	4	3	4	5	4	36	70
Score	8	7	6	4	5	7	6	5	9	57	7	6	5	7	8	7	8	6	5	59	116

The player scored a 9 on the par three ninth hole. We adjust this down to twice par which makes it a 6 and we deduct the adjustment (3) from the total score. The adjusted total for this golfer is 113 (116-3). 113 lies in a row in the table which shows this golfer gets to subtract the first 4 ½ holes pre-designated by the tournament officials.

As an example, let's say that the first five holes designated by the officials were #'s 4, 7, 9, 13 & 16. Looking at the score card above, we would then deduct the following scores (4, 6, 6, 7 & 4 {half of 8} = 27), which applied to the adjusted gross score would be 113 – 27 = 86. Going back into the above table, we find 86 is in Column **d**. Next we look down column **d**, and at the bottom we have a +1 which we apply to the golfer and the final Calloway score is 87.

NOTE:

1. Whenever possible, it is suggested to have a shot-gun start to ensure participants finish around the same time and medals can be presented at the venue at the competition of Day 2 of competition.
2. The Host should endeavour to change the composition of the foursomes each day of the tournament
3. No caddies allowed; spotters may be allowed with permission ONLY from the Host prior to the start of competition.
4. Unnecessary swearing will not be permitted.

If two players from different age categories join to form a mixed team; the age of the younger player of the team will determine which age category they will compete in.

BASICS

When playing Pickleball the serve must be hit underhand and each team must play their first shot off the bounce. After the ball has bounced once on each side then both teams can either volley the ball in the air or play it off the bounce. This eliminates the serve and volley advantage and prolongs the rallies. To volley a ball means to hit it in the air without first letting it bounce.

No volleying is permitted within the seven foot non-volley zone, preventing players from executing smashes from a position within the seven foot zone on both sides of the net. This promotes the drop volley or "dink" shot playing strategies, as Pickleball is a game of shot placement and patience, not brute power or strength.

Both players on the serving team are allowed to serve, and a team shall score points only when serving. A game is played to eleven points and a team must win by two points.

Points are lost by hitting the ball out of bounds, hitting the net, stepping into the non-volley zone and volleying the ball, or by volleying the ball before the ball has bounced once on each side of the net. Player positioning on the court for both singles and doubles and playing strategies are found in the rules and DVD that are included in your # 103 Portable Tournament Set.

The Serve:

At the beginning of the serve, BOTH FEET must be behind the baseline. At the time the ball is struck, at least one foot must be on the playing surface or ground behind the baseline and the server's feet may not touch the playing surface. The serve is made underhand. The paddle must pass below the waist. The serve is made diagonally cross court and must clear the non-volley zone. Only one serve attempt is allowed, except in the event of a let (the ball touches the net on the serve, and lands on the proper service court). Then, the serve may be taken over. At the start of each new game, the 1st serving team is allowed only one fault before giving up the ball to the opponents. Thereafter both members of each team will serve and fault before the ball is turned over to the opposing team. When the receiving team wins the serve, the player in the right hand court will always start play.

The Volley:

To volley a ball means to hit it in the air without first letting it bounce. All volleying must be done with the player's feet behind the non-volley zone line.

Double Bounce Rule:

Each team must play their first shot off the bounce. That is, the first receiving team must let the served ball bounce, and the serving team must let the return of serve bounce before playing it. After the two bounces have occurred, the ball can be either volleyed or played off the bounce.

Faults:

- Hitting the ball out of bounds
- Not clearing the net
- Stepping into the non-volley zone and volleying the ball

The Court:

The court dimensions are identical to a doubles badminton court. The court dimensions are 20' x 44' for both doubles and singles. The net is hung 36" on each end of the net and 34" in the middle. A non-volley zone extends 7' on each side of the net. There remains 15' on each side of the court. On each side, these 20' x 15' rectangles are further divided onto two equal rectangles measuring 10' x 15'. When laying out the court, allow adequate space at each end and sides of the court boundary lines for player movement. (Three to five feet on each end and one to two feet on the sides).

It is permissible for a swimmer to be completely submerged for a distance of not more than 15 metres after the start and after each turn. By that point, the head

must have broken the surface. The swimmer must remain on the surface until the next turn or finish.

2. Swimmers are required to touch end of pool during turns. Swimmers using butterfly or breaststroke must have both hands touch at ends of the pool.
3. Starts are permitted from blocks, edge of pool, or push off in the water supported by a hand on the end of the pool.

5. 100m Individual Medley: four (4) different strokes must be used in the order of Butterfly, Backstroke, Breaststroke and Freestyle. Timers will be provided with special cards provided by the CSGA to help keep track of this event.
6. Participants are to be timed to a tenth (1/10) of a second. If a tie still exists, then both participants are declared winners.
7. All swimmers must be in the possession of ID Cards at poolside. These are to be given to the timers when they race.

PREDICTED TIME SWIM

55+	WOMEN	3
55+	MEN'S	3

NUMBER OF PARTICIPANTS:

Predicted swimmers can enter two (2) predicted times events: 100m each day for two (2) days (total of 200m) and 200m each day for two (2) days (total of 400m) and cannot enter the timed events, but can enter the relay.

TIME PREDICTED SWIM

- At the Canada 55+ Games, swimmers will be required to predict their time each day, a half hour prior to competing. The combined total difference for the two days will determine the winners. For example, if six (6) seconds over on the first day and three (3) seconds under on the second day; combined total time difference is nine (9) seconds.

- Swimmers are not to use watches or receive pacing information from the sidelines. In the case of a tie, the swimmer with the fastest time will be declared the winner.
- A medical examination two months prior to the games is strongly recommended.

RULES INFORMATION: Tennis Canada Rules will apply.

1. A round-robin format will be used. Depending upon the number of provinces/territories entered, either a straight round robin with no playoffs to follow, or a two-pool round robin with subsequent playoffs between the top two pairs in each pool will be used. If the tennis tournament needs to be shortened due to weather or any other reason, it is recommended that the format be changed to a Best of Three with no add scoring. If it goes to three sets, the third set is the Super 10 point tie break.
2. Three set matches will be played, with the best two-out-of-three sets winning the match.
3. Tie - Breaking: If both players have won 6 games each and the set is tied, a tie-breaker game must be played. The scoring for this game is conventional and linear, starting from 0 to 1, 2, 3 - and so on. The first player to score 7 points wins the game and the set, provided he has a two point lead over his opponent. The tie-breaker game continues, till a player achieves the two point lead to win the game and set. During this game, the sides need to be changed after 6 points are scored.

RULES:

1. International Amateur Athletic Federation Rules will apply.
2. If a province territory has insufficient people to fill out their quota from the above Track events, but have participants interested in participating only in Field events, they may do so as long as their total team numbers do not exceed the total number of participants allowed per province/territory as shown above.
3. If a Prov/Terr team is short a runner for the relay, they can pick up a runner from another Prov/Terr. However, each Prov/Terr has first choice for their own four runners.

Predicted Walk:

AGE	EVENTS	NUMBER OF PARTICIPANTS PER PROVINCE/TERRITORY
55+	Women	6
55+	Men	6
TOTAL NUMBER OF PARTICIPANTS PER PROVINCE/TERRITORY = 12		

Participants can enter two (2) events: 400m walk each day for two (2) days (total 800m) and 1000m each day for two (2) days (total 2000m). Participants will be permitted to know their times after the first walk for the 400m and the first walk for the 1000m. The lowest combined total difference for each of the 400m and 1000m walked twice will determine the winner. For example: when 400m is walked the first time and the walker is over their predicted time by 6 seconds, and on the second walk they are under their predicted time by 3 seconds, the combined total time difference for that walker is 9 seconds.

The 400m predicted walk should be held on the staggered starts. If more than 8 participants, then a second heat should be held.

Participants cannot enter the timed events, but can, if necessary, enter the relay in their proper gender and can also enter two (2) field events.

Participants in the Predicted Time Event may use the assistance of walking aids (i.e. canes, Nordic poles, wheelchairs, etc.).

SCHEDULING:

1. In order to not have all sprints on the same day, and not all middle and long distance runs on the same day, it is recommended to the organizers that the schedule has the 100m and the 1500m in the morning of the first day, with the 400m in the afternoon; and on the second day have the 200m and the 3000m early in the morning with the 800m later in the afternoon.
2. The field events can then be scheduled around these sprints.

BOCCE

All participants must be at least 55 years of age by December 31 of the year of the games.

AGE CATEGORIES / EVENTS:

AGE	EVENTS	NUMBER OF PARTICIPANTS PER PROVINCE/TERRITORY
55+	Open Teams (Fours)	2 Teams
70+	Open Teams (Fours)	2 Teams
TOTAL NUMBER OF PARTICIPANTS PER PROVINCE/TERRITORY = 16		

RULES INFORMATION:

- Modified grass-court rules will apply.
- The game of bocce is similar to lawn bowling and carpet bowling, with the object being to get as many bocce as possible closest to the pallino.
- Bocce will be played on grass courts, with lanes 80 feet in length by 13 feet in width.
- **The Host may choose to offer 4 person or 2 person teams.**
- **FOUR PLAYER BOCCE.** - Each team will consist of four players. The leads and seconds from both teams will each throw two balls from the same end of the court to constitute one end played. The next end the thirds and skips will each throw two balls from the opposite end of the court, constituting another end played. Play will continue to rotate in this manner until the game is completed.
- **TWO PLAYER BOCCE.** – Each team will consist of 2 players. The lead and skip of both teams will each throw two balls from the same end of the court to consist of an end played.
- After the first end, the team which wins the previous end throws out the pallino and throws the first ball.

1. THE BOCCE COURT:

The sport of Bocce will be played on a grass court. The ground should be level and firm and the grass cut short. For best results use lime to mark the court.

Line A corresponds with the total length of the lane. This includes a ten-foot throwing zone at each end. Line B represents the playing zone. All play takes place within lines B.

2. REGULATIONS:

- a) Players are not allowed beyond line "B" until all the bocce has been played. The referee is the only one allowed at the pallino end.
- b) The small ball (pallino) must cross the centre line "D".
- c) A coin is flipped to determine who throws first. The team winning the toss has the option of throwing first or last. The team, which throws first, has the choice of bocce.
- d) The team throwing the pallino has ONE attempt to place the pallino in the play area beyond the centre (line D). If this is not accomplished, the opposing team throws the pallino and the team, which threw the pallino first, throws the first ball. If the player from the second team also fails to place the pallino in the play area, the referee then centers the pallino at a point halfway between lines "B" and "D" at the opposite end. The team that first threw the pallino then throws the first ball.

3. THE GAMES AND THE TEAMS:

- a) The object of the game is to get one's own boccia as close as possible to the pallino.
- b) The boccia may be either rolled (raffa) or lofted (volo) down the lane. The boccia is rolled or lofted underhand only.
- c) Nearest Ball: The first player on team A rolls or lofts the pallino and then rolls or lofts one bocce. The first player on the opposing team (team B) then takes his/her turn. He/she must get his/her bocce closer to the pallino than team A's bocce. If he/she fails with his/her two bocce then the next member of team B tries. If team B is unable to get closer to the pallino than team A, then the remaining members of team A play their bocce. If a player from team B succeeds in getting his/her bocce closer to the pallino than team A's bocce, team A begins to play again. The play shifts from one team to the other depending upon whose bocce are closest to the pallino.
- d) Each team has a skip – a player who has the right to address the referee with regard to the game and to ask him to verify the position of the played bocce.
- e) Each player is allowed one minute to deliver one boccia.

THE GAMES AND THE TEAMS:

- f) Each team is allowed one, two-minute time out per game. This can be done only when a player from the team requesting the time out is about to play.
- g) The substitution of players can only take place between games.

4. SCORING:

- a) Both the 2 Player game and the 4 Player game will consist of ten ends. Total score declares the winner. A team achieving fifteen points prior to the completion often ends shall be declared the winner.
- b) When playing fours, the determination of the score for an end of play will be done by either the seconds or the thirds when the play is in their respective end of the court.
- c) Points are computed by assigning one point to each boccia closest to the pallino with respect to the opponent's bocce.

5. THE PLAY AT POINT (PUNTO):

- a) The play at point consists of throwing one's boccia as close as possible to the pallino. If the player's foot, steps on line B, his boccia is removed immediately.
- b) It is not permissible to play another boccia before the previous boccia comes to a stop.
- c) If two opposing bocce are equidistant from the pallino at the conclusion of an end, a blank end is declared.

6. THROWING OF THE BOCCE:

- a) During the game, it is not permissible for the players to go beyond the throwing line (B) until both teams have finished playing.
- b) A player cannot go beyond line B if he still has bocce not yet played.
- c) Any bocce or pallino that exit a lane during regular play are considered to be no longer valid.
- d) All bocce are valid as soon as they are delivered across the near B line. There is no hog line.
- e) At the start of an end, if the pallino lands closer than one foot to the sideline or the far end, the referee then centres the pallino in the centre of the playing surface (recommend that the HC pre-marks this spot at each end prior to the start of the competition).
- f) If a player throws out of turn, the non-offending team will have the option of letting the throw stand, or, after repositioning any displaced balls, have the offending team re-throw in the correct order.

7. **DEFINITIONS:**

PUNTOpoint

AT PUNTO.....in the attempt to get a point

RAFFA.....the roll (a form of delivery)

VOLO.....loft or fling

PALLINO.....small ball

BOCCIA.....large game ball

BOCCE.....plural of boccia

8. **ADDITIONAL COMMENTS:**

a) If a pallino is knocked out of bounds, the team committing the error will be penalized two points. These two points will be awarded to the opposing team and the end will count as an end played.

b) Thirds are responsible for the count at the completion of each end. No balls are allowed to be touched until opposing thirds agree to the score. If the thirds cannot agree, then the referee will make a decision.

9. **COMPETITION FORMAT:**

At the Canada 55+ Games, a complete round robin will be played.

A win will count two (2) points.

A tie will count one (1) point.

A loss will count zero (0).

Final placement in the standings will be calculated by the total number of game points, wins and ties. If there is a tie for the total game points, the team that had the most wins is awarded the higher ranking. If teams are still tied, the winner of game in the round robin between the tied teams is awarded the higher ranking. If a tie still exists, then the team with the greatest overall point differential will be declared the winner.

CARPET BOWLING RULES

All participants must be at least 55 years of age by December 31 of the year of the Games.

AGE CATEGORIES / EVENTS

AGE	EVENTS	NUMBER OF PARTICIPANTS PER PROVINCE / TERRITORY
55+	Open Team of 4	2 Teams
70+	Open Team of 4	2 Teams
TOTAL NUMBER OF PARTICIPANTS PER PROVINCE / TERRITORY = 16		

GENERAL INFORMATION:

1. Teams will consist of four players, any combination of men and women.
2. Bowls will be 4 inch indoor biased carpet bowls.
3. Carpet will be 30 feet by 6 feet.
4. Standings for a tournament will be based on Wins/Ties/Losses. A win shall count as 2 points, a tie as 1 point and a loss as 0 points.
5. Tournament play for a national final will be a round-robin event. If two teams are tied after round robin play, four extra ends (or more if necessary) will be played until the tie is broken. If a three way tie exists, the aggregate points scored against each team shall be divided into the aggregate points it has scored.
6. Bowls moved inadvertently before being measured will be put back in place. The thirds will be responsible for measuring. Dead bowls will be removed. All measurements will be supervised by the event official.
7. If a player bowls an opponent's bowl by mistake, he or she will replace it with one of their own, once the bowl has come to rest.
8. Penalties will apply for knocking the jack off the carpet. The points will be added to the score of the opposing team and the end will be counted as an end played, except the eighth end should be replayed if the jack is knocked off. Penalties are listed further on in these rules.

MODIFIED RULES FOR PERSONS WITH DISABILITIES:

We have in mind persons who because of accidents or other ailments are unable to deliver their bowls in a standing position. Such persons should be permitted to deliver the bowls in a position which best suits them, whether sitting in wheel chairs, ordinary chairs or stools; even to resting their knee, if kneeling, or knees on the floor. Front

wheels and legs of chairs, and the person's knee must be immediately behind the toe-line, otherwise standard rules and common sense prevail.

EQUIPMENT

The diagram shows the plan of the carpet with the delivery rectangles, each of which is 24 inches by 20 inches by 9 inches. To protect the carpet while the bowls are being delivered, the footer at the delivery end must be covered by a mat which may extend behind the carpet. White lines parallel to the ends of the carpet and at a distance of 10 feet from each end are drawn across the carpet. Slippers or soft-soled shoes, without heels should be worn. Equipment is to be supplied by the Host Committee.

A GAME

A game will consist of eight (8) ends. If the total number of points is equal at the conclusion of a match, the result will be a tie. If a winner is required, an extra end will be played and the opponents will toss as for the beginning of a game. If during the playing of an extra end the jack is knocked off the carpet, the penalty will be incurred and the end is not replayed. control of the carpet passes to the opposing side as soon as the preceding bowl has come to rest.

THE PLAYERS

In a fours game, each plays two bowls, the leaders their two alternately, then similarly with the seconds, the thirds and the skippers.

Teams will toss and the winner of the toss will have the choice of the set of bowls to use, and will have the option of directing the opponent to bowl the jack and the first bowl or electing to do so himself. Each succeeding end will be started by the winner of the previous end at which a score was recorded. In deciding the winner of an end, penalty scores must not be considered. The first to play at an end that results in a tie (no score), a dead end, or a penalty, will again play first.

The "skipper" will have sole control of his players and the skippers will be the sole judges of all disputed points, except on measuring (done by the thirds).

If they are unable to agree, the dispute will be settled by the umpire. In the fours game, the third will be the measurer and the second will be the scorer. The Skipper is the director of the head except when bowling, then the third is the director of the head.

LOCATION OF PLAYERS

The directors of the head stand at the jack end of the carpet. All players, except the skippers, must remain at the delivery end until the skippers are due to bowl, and they will then change ends.

All players except those controlling play, will stand or be seated beyond the end of the carpet at the delivery end or beyond the end of the carpet at the jack end if the players have changed ends. The skippers, after having changed ends will remain beyond the end of the carpet at the delivery end. The player controlling play for the team that has possession of the carpet may stand behind the carpet at the jack end or along either side of the carpet provided they remain less than 15 feet from the end of the carpet at the jack end. The player controlling play for the team that does not have possession of the carpet must stand beyond the end of the carpet at the jack end.

BOWLING THE JACK

If the jack, when bowled, runs off the carpet either at the ends or the sides, or if no part of it reaches the line 20 feet from the delivery end of the carpet, it will be sent back for the opponent to bowl it. After each leader has had one unsatisfactory throw, the jack will be placed approximately 24 feet from the delivery end of the carpet and in the centre of the carpet. The opponent's throwing of the jack will not affect the order of playing of the bowls. If the jack, when bowled, comes to rest on the carpet between the line 20 feet from the delivery end and the front of the rectangle at the jack end, it will be placed at the centre of the carpet at a point opposite that at which it came to rest. If the jack, when bowled, comes to rest on the carpet at a point further from the delivery end than the front line of the rectangle at the jack end, it will be centred at the front of this rectangle. If at any time the jack is shifted by play and rebounds so that it comes to rest less than 15 feet from the delivery end of the carpet, the end will be dead and will be replayed.

DELIVERING THE BOWL

At the moment of delivery, a player must have at least part of one foot within, and on the footer. No portion of either foot may be on, or over, any portion of the carpet except the footer area. Any portion of either foot which is not on the footer must be outside the carpet. At the moment of releasing the bowl, a player must have the hand delivering the bowl within the boundaries of the delivery rectangle. The bowl need not contact the carpet before passing outside the delivery rectangle. The bowl must pass wholly over the front line of the delivery rectangle. It is permissible to deliver a bowl in such a way that the natural bias does not operate except that a bowl may not be delivered disc-over-disc. A bowl which comes to rest less than 10 feet from the delivery end of the carpet, or outside the boundaries of the carpet, is dead and will be removed. If a player bowls an opponent's bowl by mistake, it will, when it has come to rest, be replaced by one of his own bowls.

DELIVERING THE JACK: The rules that govern the delivery of a bowl as to the footer and the delivery rectangle, will also apply to the delivery of the jack. If a player infringes these rules, the jack will be considered as improperly delivered.

JACK IN COURSE: If a jack in course is obstructed or deflected by a neutral object or neutral person or by an umpire, opponent, or a member of the opposing team, it will be redelivered by the same player. If it is obstructed or deflected by a member of the players own team, it will be redelivered by the Lead of the opposing team.

MOVEMENT OF JACK: If a jack is diverted from its course while in motion on the carpet as the result of play, or displaced while at rest on the carpet by one of the players, the opposing Skipper will restore the jack to its former position or allow it to remain where it rests and play the end to a finish, or declare the end dead.

BOWL IMPROPERLY DELIVERED: Should a player deliver a bowl not in accordance with earlier provisions of these laws, the umpire may after having given a warning, have the bowl stopped and declared dead. If the bowl has come to rest and has not disturbed the head, the bowl will also be declared dead. If the bowl has disturbed the head, the opponent will have the option of either re-setting head; leaving the head as altered; or declaring the end dead.

MOVEMENT OF BOWLS: If a bowl, while in motion or at rest on the carpet, is interfered with or displaced by one of the players, the opposing Skipper will have the option of:

1. Restoring the bowls as near as possible to its original position
2. Letting it remain where it rests
3. Declaring the bowl dead
4. Declaring the end dead

If a bowl in its original course is interfered with by a neutral person or object and it has not disturbed the head, it will be replayed. If it has disturbed the head, the two Skippers will agree on the replacement of the head. If they are not able to agree, the end will be declared dead.

If the head is disturbed by a neutral object or person, the two Skippers will agree as to the replacement of the head. If they are unable to agree, the end will be declared dead.

If a bowl or the jack is inadvertently moved while being measured it will be replaced by the opposing measurer. If the movement is caused by an umpire, the umpire will make the replacement.

MEASURING

After all of the bowls have been played and come to rest, the measurers will decide the result. If the measuring is necessary, it may be carried out by either measurer. If the opposing measurer is not satisfied, he may then measure himself. If the measurers are not in agreement, they will call the umpire whose decision is final. One point is allowed for each bowl nearer the jack than the nearest bowl of the opponent. If the nearest opposing bowls are equidistant from the jack, the end is a tie and no score is recorded although it will count as an end.

PENALTIES FOR TAKING THE JACK OFF THE CARPET

Leader.....	1 point
Second.....	2 points
Third.....	3 points
Skipper.....	4 points

The points will be added to the score of the opposing team, and the end will count as an end played.

Exception: The final end will be replayed if the jack is knocked off the mat and penalties will apply.

NOTE: In all cases, the team throwing the first in the end in which penalties were incurred, will throw first in the next end.

DEFINITIONS

Bowl in Course or Jack in Course: a bowl or jack from the moment it is released from the hand until it comes to rest.

End: the playing of the jack and all the bowls of all the opponents in the same direction.

Head: the jack and such bowls as have come to rest on the carpet and are not dead.

Displaced as applied to a jack or bowl: disturbed by any agency that is not sanctioned by these laws.

MEASURING CONDITIONS

The measurement will be made to the nearest point of each object. No measuring will be allowed until all the bowls in an end have come to rest. When the last bowl has come to rest, half a minute will elapse, if either team desires, before the shots are counted.

If a bowl requiring to be measured is resting on another bowl which prevents its measurement, the best available means will be taken to secure its position, whereupon the other bowl will be removed.

The same course will be followed where more than two bowls are involved, or where, in the course of measuring, a single bowl is in danger of falling or otherwise changing its position.

If a bowl is not stabilized and it changes its position on its own accord before being measured, its changed position will apply.

No bowl will be removed without first receiving the consent of the opposing measurer.

Nothing in these laws will be deemed to make it mandatory for the last player to play his last bowl in any end, but the player will declare to his opposing Skipper his intention to refrain from

playing it before the commencement of determining the result of the end and this declaration will be irrevocable.

PLAY IRREGULARITIES

When a player has played before his turn, the opposing Skipper will have the right to stop the bowl in its course and it will be played in its proper turn; but in the event of the bowl so played having moved or displaced the jack or bowl, the opposing Skipper will have the option of allowing the end to remain as it is after the bowl so played comes to rest or having the end declared dead.

If the result of an end has been agreed upon, or the head has been touched in the agreed process of determining the result, then a player who forfeits or has omitted to play a bowl will forfeit the right to play it.

A player who has neglected to play a bowl in the proper sequence will forfeit the right to play such bowl, if a bowl has been played by each team before such mistake was discovered.

If, before the mistake is noticed, a bowl has been delivered in the reversed order, and the head has not been disturbed, the opponent will then play two successive bowls to restore the correct sequence. If the head has been disturbed, the opposing Skipper will have the option of allowing the end to remain as it is after the bowl so played had come to rest or having the end declared dead.

If a bowl, delivered out of the proper sequence, drives the jack off the carpet, the end will be declared dead and penalties will be assessed in accordance with earlier provisions of these laws.

No player or spectator will be permitted to interfere with a player in any way while a player is in the process of delivering his bowl.

AGE CATEGORIES / EVENTS: Open team competition (open to ladies and men)

AGE	EVENTS	NUMBER OF PARTICIPANTS PER PROVINCE/TERRITORY
55+ 70+	Open Team of 4 Open Team of 4	2 Teams 2 Teams
TOTAL NUMBER OF PARTICIPANTS PER PROVINCE/TERRITORY = 16		

Rules Information:

- A round robin tournament format will be used. If two teams are tied after complete round robin, a four end game will be played.
- Games will consist of eight (8) ends.
- Teams will consist of four (4) players.

Description:

The playing surface may be of hardwood, linoleum, well-laid tiles or smooth cement floors.

- The standard rink should be 36 feet in length and 8 feet in width, however, if the available playing surface is less than 36 feet, the length will have to be reduced accordingly.
- Circles 27 inches in radius are drawn in each end. The centre of the circle is located 45 inches from the middle of the end line and should be indicated by a circle of button 3 ½ inches in radius. Hog lines are marked across the rink 6 feet from the edge of the circle. A toe line is marked on each end line 27 inches each way from the centre of the end line. The toe line is, therefore, 54 inches in length and directly behind the circle of 54 inches in diameter. The player when delivering his rock must stand behind this toe line and within the 54-inch distance and directly behind the circle.
- The area between the circles should be properly prepared before the game starts, with a light sprinkling of shuffleboard wax or cornmeal or a mixture of both, depending upon the type of surface. "Sun-Glo" or "Super-Glide" wax is commonly used.

Equipment:

- Sixteen circular disks are cut from maple or other hardwoods and equipped with handles. The weight of these rocks is two (2) pounds each. These rocks are seven (7) inches in diameter and approximately 1 3/4 inches in thickness.
- The playing surface of these rocks is sanded smooth and then treated with a good grade of varnish or Swedish penetrating oil. Depending on the amount of use, the rocks should be treated with a paste wax periodically to maintain a good smooth playing surface. The paste wax should be removed by rubbing with a soft cloth 20 to 30 minutes after being applied.
- The edges of the rocks are beveled slightly so as not to damage the playing surface.
- The handles of the rocks and/or the rocks themselves must be painted various colours so they are easily distinguished by the players of each team.
- There is no sweeping. Instead of a broom, as is used in ice curling, the skip uses a stick to direct the players as to where he wants the rocks delivered. The skip or vice-skip must not touch his team's rocks or those of his opponent. It is, therefore, important that the skip lifts his stick and moves behind the toe line as soon as the rock is delivered. These sticks should be of convenient length and painted or marked in the same colour as the team rocks.

The Game Procedure:

- The team consists of four players: Skip; Third; Second; and Lead.
- The Third players are responsible for deciding and recording the score. Rocks must not be removed until agreement has been reached by the Thirds.
- If there is any doubt, the official Umpire or Draw Master should be called in to measure.
- A pair of calipers or compasses should be used for measuring the distance that rocks are from the centre button in determining which team scores.
- The scoreboard to be used in floor curling is the same as that used in ice curling. The figures in the centre denote the score. The tabs denote the ends played.
- The rock is delivered from a standing position (see Modified Rules for the Disabled). No step or slide may be taken. Both feet of the player must be inside the marks on the sides of the toe line directly behind the circle and the player must stand immediately behind the toe line. The rock must be delivered inside the markers on each side of the toe line.

- The Skip, while directing play, must not touch the rocks during play, nor shall Skips allow any rocks to touch them.
- Rocks will be taken from play if:
 1. The delivering player steps over the toe line.
 2. The rock strikes the side boundaries of the rink or border of end lines outside the toe lines. NOTE: If a rock strikes another rock after bouncing off the side, then the rock so bumped will be put back as close as possible to its former position.
 3. The rock does not completely cross the hog line. NOTE: If the rock being delivered strikes another rock that is just immediately over the hog line, that rock being delivered is in play even though it may not be completely over the hog line.
 4. The rock is completely over the toe line. NOTE: Rocks resting between the circle and the toe line are still in play as it is possible that rocks played later may come to rest in scoring position.
 5. A rock being delivered comes to rest on its edge, handle or another rock.

NOTE: A rock that is delivered rolling or upside down is termed an illegal delivery. However, if the rock being delivered on its handle or side rights itself before crossing the second hog line, it will be considered to be in play. The Skip or the player making an illegal delivery will make every effort to stop and remove from play such rock (between hog line and house) before it comes in contact with any rocks in play.

6. A rock, if delivered legally but is overturned AFTER striking rocks already in play, the delivered overturned rock must be removed and other rocks moved by that rock will remain in play in their new positions.
7. In the opinion of the Umpire or official, a rock is delivered in an unorthodox manner.
8. Skip or Vice-Skip moves the team's rocks(s) with stick or feet to gain advantage, then such rock shall be removed from play.

Rocks will remain in play if:

1. Skip or Vice-Skip moves an opponent's rock(s), then the opposing Skip will place the team's rock back to original position. Under no circumstances will the rock(s) in question be removed
2. Skip or Vice-Skip accidentally moves a rock(s); such rock shall be placed as close as possible to its original position, decisions to be made by Skips or Vice-Skips.

3. A rock(s) in play is/are moved by a rock diverted from an adjoining rink; such rock(s) in play will be placed as close as possible to its original position.
4. A rock, in delivery, upsets a rock already in play; such rock already in play shall be righted and placed in its former position.
5. A rock being delivered comes to rest on its edge, handle or another rock.

NOTE: If Skips cannot agree on any of the above circumstances, then the official Umpire and/or Draw Master intervene to make binding and final decisions.

Scoring:

- The rock, or rocks, belonging to one team, which are closer to the centre of the house than any of their opponents shall score a point for each rock in that end.
- No rocks will be removed until agreement is reached.
- If there is doubt, then the Umpire or Draw Master shall be called to measure. A pair of calipers or some other measuring device should be used for measuring. The Umpire or Draw Master's decision will be final.
- Thirds are responsible for deciding and marking the score.

Competition Rules for Floor Curling:

- All games shall be eight (8) ends.
- The two thirds will toss a coin to determine which rink will start play in the first end.
- Each rink will play with four players at all times, with each player delivering two rocks in proper succession and in accordance with the rules of the game.
- Personnel on the rink will play in the position fixed by the Skip in the playing of the first end of the game. No change in position will be made once the game has started. Coaching the skip is NOT allowed.
- Skips may have the choice of playing Lead, Second or Third rocks provided players play positions throughout the game as established at the beginning of the game.
- If for any reason a substitute player is used, such substitute plays Lead and other players of the team move up.
- In the event of a disagreement between Skips, the Umpire shall be asked for a decision. If either or both Skips dispute it, it may be appealed to the Draw Chairman whose decision shall be final.

- If a player plays out of turn, the rock is stopped and returned to the player. When a player delivers a rock belonging to the opposing team, a rock belonging to his own team will be put in its place.
- When a player delivers a rock out of proper rotation, it shall be removed from play immediately by the delivering team and returned to the player to be delivered in proper rotation. Where the error is not discovered until after the rock has come to rest or has struck another rock the end shall be continued, as if an error had not been made.
- Where Skips agree that a rock has been missed, but are unable to agree as to which player missed his turn, the Lead of the team that made the error shall play the last rock for his team in that end.
- When two rocks of a team are delivered in succession in the same end, the opposing Skip shall remove the rock played in error, replace any rock(s) displaced and continue the end as if an error had not occurred. The player who made the error shall deliver that rock for his team as last rock in the end.
- If a player delivers three stones in any end, the end shall continue as if an error had not occurred and the fourth player of that team shall deliver only one rock.
- Delivery Sticks: The use of “delivery sticks” to aid in the delivery of the rock is acceptable. The stick is not intended to create an advantage for a player, instead the intent is for him/her to continue to play the game. The delivery stick must not exceed 45 inches in length. The delivery stick must work with the handle of the rock, and the rock must be released within 18 inches past the toe line towards the circle.

Modified Rules for the Persons with Disabilities:

We have in mind a person who, because of accidents or other ailments, is unable to deliver their rocks in a standing position. Such persons should be permitted to deliver the rocks in a position which best suits them, whether sitting in a wheel chairs, ordinary chairs or stool-even to resting their knee, if kneeling, or knees on the floor. Front wheels and legs of chairs, and the person’s knee, must be immediately behind the toe line, otherwise standard rules and common sense prevail.

Tie Breaking Rules:

1. If, after a round robin, two teams are tied among those eligible for medals, a four end game shall be played to determine the winner.
2. If, after the round robin, more than two teams are tied among those eligible for medals, the following tie-breaking procedure will apply:
3. If a three-way tie exists, go to the most wins in the round robin.
4. If a three way tie still exists, go to who beat whom in the round robin (of those tied)

5. If a three-way tie still exists, go to total of points scored in the round robin.
6. If a two way tie occurs at any stage of this procedure, a four end game shall be played to determine the winner."

Format: A modified round robin format of play will be used, teams will be numbered and play as designated by the Marshall. The number of rounds to be played will be determined by time available, at least 6 rounds are desirable. After each round of play the Marshall will designate the playing positions of the teams. The Marshall may enforce a time limit if necessary to complete a round in a timely fashion.

Rules and Playoff Information

1. Boxes are to be standard, '15" Flower Shop Boxes', if possible. Teams will use washers of different colours; each team will have two washers. A standard scoring stick is required at each pitch.
2. Boxes are to be placed 20 feet apart.
3. One player from each team will be designated to toss from each end of the pitch. When tossing the players front foot must be behind the front of the box at that end of the pitch.
4. The player from each team will toss their two washers in succession, following which the score for that end of play will be determined by the players at the other end of the pitch. At the start of the game the team to toss first will be determined by a coin toss, once a score has been made the team to score last will toss first.
5. The winning team will be the first team to reach or exceed 21 points. Note: To enable the games to precede more quickly the requirement for an exact score of 21 WILL NOT BE USED.
6. At the end of the game the winning team and the score will be submitted to the Marshall and be awarded 5 points in the competition. In the event that a game has been called for a time limit the team with the highest score will be awarded 5 points. In the event of a tie each team will be given 2 points.

7. The 1st, 2nd and 3rd place teams for the competition will be determined by the teams point total. If an unequal number of games have been played, the team(s) with the most games will have the score from their last game taken from their total points. In the event of a tie for 1st place the gold medal will be determined as follows:

NOTE: If only 2 teams are tied and one has beaten the other in the round robin play they will be awarded 1st and the other team 2nd place. If they have not played in the round robin, or split their games in a double round robin if it were played, a coin toss will determine the winner. With 3 or more teams tied, straws of different lengths will be drawn, with the longest straw determining the position. Ties for the silver or gold medal will be decided in the same manner. **NOTE:** If time permits, additional games may be played to break ties.

Scoring

1. After each team's player has tossed their two washers the score for that end will be determined. Only one team can score on a single end. The score for the washers thrown is as follows;
 - 3 points - In middle cup
 - 2 points - Inside the box
 - 1 point - Outside the box, but close enough that it can be touched by the scoring stick while the stick is touching the box.
2. Washers outside the box can count anywhere around the box. Leaners and/or washers which go under the box will be considered the same as a washer touching the box. Washers of different colour at equal distance outside the box cancel.
3. Washers of different colours in the same area, middle cup or box cancel.
4. For washers of different colours outside the box the closest to the box scores. If 3 or 4 washers are within scoring distance outside the box, a team may score 2 points if both their washers are closer than the opponent's.

NOTE: Only one team can score on an end!

However, either team's washer which has not been cancelled eliminates all washers of the other team in a lower position. For example; with a yellow washer in the middle zone, a silver washer in the box and a yellow washer in the scoring area outside the box, the yellow team scores 3 only. A team's score from an end is added to that team's previous score until one of the teams reach or exceeds 21 points. That team is then declared the winner and will be awarded 5 points in the overall competition.

WHIST

All participants must be at least 55 years of age by December 31 of the year of the games.
